

Virtual Event:
**The All of Us
Research Program**
"Genetics and
Brain Health"

Join Us

Learn how you can be included in shaping the future of health care for you, your family, your community, and generations to come by joining us for an *All of Us* Research Program virtual event.

January
26th

Wednesday, January 26th, 2022
12:00 p.m. - 1:00 p.m. PST
Register online at:
<https://bit.ly/3226w2P>

Presented by:

Our Community Advisory Board Member Dr. Dung Trinh from Irvine Clinical Research will be discussing the importance of mapping your genome and the influence of lifestyle, diet, aging and Alzheimer's on brain health.

At the moment, health care is often one-size-fits-all. When we visit the doctor, our treatments are often the same. We think one day health care should be tailored to you. This is called precision medicine. And research can help us get there. How? By creating a resource that may allow researchers to conduct thousands of studies on health and disease. Join us. The future of health begins with you.
