

**The *All of Us*
Research Program**
Virtual Event:
**What is Integrative
Medicine?**

Join Us

Learn how you can be included in shaping the future of health care for you, your family, your community, and generations to come by joining us for an *All of Us* Research Program virtual event.

**August
27**

Friday, August 27, 2021
12:00pm to 1:00pm
Register here:
<https://bit.ly/2TUScpf>

Presented by:

Dr. Alex Kipp from UCI Health will be discussing the basics of integrative medicine and how it provides personalized health care. He will also talk about the evidence behind common integrative medicine approaches and review what to look for in a quality integrative medicine provider.

At the moment, health care is often one-size-fits-all. When we visit the doctor, our treatments are often the same. We think one day health care should be tailored to you. This is called precision medicine. And research can help us get there. How? By creating a resource that may allow researchers to conduct thousands of studies on health and disease. Join us. The future of health begins with you.
