Learn how you can be included in shaping the future of health care for you, your family, your community, and generations to come by joining us for an All of Us Research Program virtual event.

At the moment, health care is often one-size-fits-all. When we visit the doctor, our treatments are often the same. We think one day health care should be tailored to you. This is called precision medicine. And research can help us get there. How? By creating a resource that may allow researchers to conduct thousands of studies on health and disease. Join us. The future of health begins with you.

The All of Us Research Program Virtual Event: Obesity in Latinx Communities

Join Us

September 30th

Thursday, September 30th, 2021
1:30 p.m.– 2:30 p.m.
Register online at: https://bit.ly/2Xv7tPi
(949) 824-0282
allofus@uci.edu

UCI Health internist Dr. Maria Peralta will discuss the prevalence of obesity in Latinx communities and how it negatively affects overall health. Join us to learn about family interventions to improve dietary behaviors, increase physical activity, and promote healthful living.

Please RSVP or Contact Us:
